

CURRICULUM VITAE

Born 16-02-1972 in Příbram, Czech Republic. Divorced, one child (Jan, born 20-06-1999).

Contact:

1. Department of Ecology, Institute of Botany, Czech Academy of Sciences, Poríčí 3b, 603 00 Brno, Czech Republic.
E-mail: fabsicova@brno.cas.cz
Tel./fax: +420 543211562
2. Koniklecová 6, 634 00 Brno, Czech Republic (personnel address).

Education:

- 1990-1995 Department of Botany, Faculty of Sciences, Charles University in Prague, in the field of Special Biology and Ecology.
Master thesis: Ecology of screes in the National Park Podyjí.
- 1995-1998 Postgradual studies, Department of Botany, Faculty of Sciences, Charles University in Prague & Institute of Botany, Czech Academy of Sciences, Průhonice near Prague.
Thesis: Communities dominated by *Deschampsia cespitosa* at higher altitudes of the Giant Mts.: spatio-temporal variability and dynamics.

Positions

- 1995-1998 Department of Population Ecology, Institute of Botany, Czech Academy of Sciences, Průhonice near Prague.
- 1998 - until now Department of Ecology, Institute of Botany, Czech Academy of Sciences, Brno.

Part-time job:

- 4/2004-2005 Faculty of Sciences, Department of Botany, Masaryk University, Brno.
- 2002-2004 Agency for Nature Protection and Landscape Ecology of the Czech Republic, NATURA 2000 vegetation mapping.
- since 2002 Children & Youth Centre Blansko, Czech Republic, essays evaluation for the Competition in Biology.

Language skills:

English – fluently

Russian – advanced

German – basic knowledge

Other skills:

Driving licence, text corrections and translations.

Research interests:

Biology of endangered species, population biology of invasive plants, ecology of clonal species (grasses), seed ecology, ecology and management of grassland communities.

Other interests:

Photography and travelling, natural sciences, history, languages.

Finished and on-going projects:

- 2002-2004 GA ČR 206/02/0581: The relationships between nutrient availability, their utilization and successfull expansion of tall grasses in dry grassland communities.
- 2003-2005 GAAVČRKJB6005304: Spatio-temporal variability of vegetation of pond bottoms on the example of ponds and storage ponds of the Českobudějovická Basin.
- 2006-2008 GA ČR 526/06/0556 : The impact of changes in precipitation on plant and soil processes in grassland communities.
- 2006-2010 GA AV ČR IAA600050616: Interaction of soil and fern communities on deforested areas influenced by acidic depositions.
