Welcome

Since 1967, the staff of the Institute of Macromolecular Chemistry in Prague has been annually involved in organizing the Prague Meetings on Macromolecules (PMM). Already 72 meetings were held, every year focusing on selected fields and pursuing new trends in macromolecular science. Three times in the past, the Prague macromolecular scientific community hosted the IUPAC World Symposia on Macromolecules (1957, 1965, 1992) from which the first one inspired the foundation of the Institute.

This year, the Institute of Macromolecular Chemistry, Academy of Sciences of the Czech Republic, celebrates 50 years from its foundation. This is the very occasion to discuss the current trends in macromolecular science from the view of challenges of science and technology for the 21st century.

The organizers wish the 73rd PMM to provide a unique opportunity for researchers to meet their colleagues in interdisciplinary fields of macromolecular science and to enjoy the exchange of ideas in the inspiring environment of summer Prague.

PRESENTATIONS

Presenation file upload

It is advised to test the presentation files well before the lecture is scheduled, ideally the day before. The organizers prefer the speakers to have their presentations uploaded in advance on the projection system that has been already set up to its best performance. If the speakers need use their own laptops, the connection and projection test is essential - the day before at the latest! The file upload spot will be located in the rear of the lecture hall A. For file upload assistance turn to the IT administrator, Mr. Jiří Kaprálek or to anyone of the IMC organizing team. Please use your last name as the presentation file name. If other than the digital projection technique should be used consult the organizers.

Language

English is the working language of the meeting.

Recordings

The audio/video recording of the lectures or copying of the lecture files is not allowed without the prior agreement of the speaker or the author. The organizers reserve the right to take photographs during the meeting.

Posters

The poster sessions will be held in the lobbies of the Institute. Material to fix posters will be provided onsite. The posters can be mounted always after lunch, i.e. during the afternoon coffee break and should be removed after the poster sessions.
