

Oddělení biofyzikální chemie
Ústav fyzikální chemie J. Heyrovského AV ČR

SEMINÁŘE BIOFYZIKÁLNÍ CHEMIE

Program spring 2013

5.2. at 15:00 in room 11.

Dr. Nathalie Mignet (Unité de Pharmacologie Chimique génétique et d'Imagerie Université Paris Descartes, CNRS UMR8151/INSERM U1022, Paris, France)

“Gene transfer from lipidic supramolecular assemblies”

13.2. at 15 00 in room 108

Dr. Šárka Perutková (Laboratory of Biophysics; Faculty of Electrical Engineering; University of Ljubljana)

“Analytical models of lipid bilayers in electrolyte solutions“

28.2. at 15 00 in room 108

Dr. Marek Cebecauer (J. Heyrovský Institute of Physical Chemistry of the ASCR)

“Single molecule localisation microscopy of plasma membrane proteins”

7.3. at 15:00 in room 108

Prof. Jerker Widengren (KTH Royal Institute of Technology, Stockholm)

Title will be still announced

13.3. at 15:00 in room 108

Prof. Michal Hocek (UOCB ASCR and Charles University, Faculty of Sciences)

“Base-modified DNA for bioanalysis and chemical biology”

Martin Hof
