

Workshop on „Precursors of the seismicity on the global scale”

Institute of Geonics AS CR, Ostrava, July 3, 2015

Guarantors: Dr. Karel Holub, DSc. , Dr. Pavel Kalenda, PhD.

Programme:

9:00 **Prof. Vadim Bobrovskij** (*Subterranean Electric Technologies Innovation Foundation, Petropavlovsk-Kamchatskiy, Russia*): **Advances in subterranean electric instrumentation running on a global scale.**

10:00 **Prof. Vladimir Kossobokov, DSc.** (*Russian Academy of Sciences, Moscow*): **Predicting Predictable about Natural Catastrophic Extremes**

11:00 – 11:15 Break

11:15 **Prof. Wen-Bin Shen** (*Wuhan University, 129 Luoyu road, Wuhan 430079, China*): **Anomalous signals prior to large earthquakes based on superconducting gravimeters records.**

12:20 – 13:00 Lunch

13:00 **Prof. Sergei Pulinets** (*Space Research Institute, Moscow*): **LAIC model manifestation through the experimental data of ground-based and satellite monitoring.**

14:00 **Dr. Pavel Kalenda** (*IRSM Czech Academy of Science, V Holešovičkách 41, Praha 8*): **Rock deformation measurements as a precursor of major global seismicity.**

15:00 – 15:15 Break

15:15 reserved

16:15 Closing ceremony

The contributions will be presented in English. Discussion should be in English or Russian (except W.-B. Shen).
