

# Products and Intermediates of Redox Reactions

17.-21.5.1971

Liblice

*Program:*

**1. Factors governing the mechanism of electrode reactions**

A.A.Vlček (Prague), chairman M.Fleischmann (Southampton)

**2. Factors operating in the mechanism of electrocatalytic processes**

V.B.Bagotskii (Moscow), chairman J.Říha (Prague)

**3. Mechanism of redox reactions of organic compounds**

B.Kastening (Jülich), chairman G.Cauquis (Grenoble)

**4. Chemistry of follow-up reactions in anodic processes of organic compounds**

L.Eberson (Lund), chairman H.Schäfer (Berlin)

**5. Electrochemical mechanistic principles involved in metabolic biochemical pathways**

R.Buvet (Paris), chairman J.Koryta (Prague)
