Vratislav Kafka: Relations among the crack growth modes resulting from tensor splitting	319–335
<i>Abstract</i>	
Alexandr Korotkov, Vladimir Frolov: Experimental studies of electrical load schedules of residential electricity consumers in urban distributive power grids	337–346
<i>Abstract</i>	
Andrea Štubendeková, Milan Smetana, Ladislav Janoušek: Non-destructive testing of artificial hip and knee joints based on eddy current method	347–358
<i>Abstract</i>	
P. R. Sharma, Pooja Sharma, Ruchi Saboo: MHD free convection radiative flow of visco-elastic fluid (Walter's liquid model-B) in the presence of chemical reaction	359–373
<i>Abstract</i>	
Arun Kumar Gupta, Kumud Rana: Thermal effect on vibration of non-homogeneous parallelogram plate of parabolically varying thickness in both directions	375–385
<i>Abstract</i>	
Rita Choudhury, Bandita Das: Transient MHD visco-elastic flow past an impulsively started infinite porous plate in presence of hall current	387–404
<i>Abstract</i>	
Upendra Mishra, Gurminder Singh: Convection along unsteady shrinking sheet with boundary slip and thermal jump in presence of radiation	405–416
<i>Abstract</i>
