Ján VÝBOŠŤOK, Pavla ŠTEFKOVIČOVÁ

Housing affordability, quality of life, and residential satisfaction in the Austrian cross-border suburban region of Bratislava, Slovakia

- Housing affordability in an area has stalled recently; in 2020, it even decreased
- A higher quality of life is related to the attributes of the residential environment
- Satisfactory residential environment impacts housing affordability
- At the same time, housing affordability influences the perceived quality of life
- Affordable housing seekers were more satisfied with their living and housing costs

Changeability of transport behaviour in a large city from the perspective of working days and Sundays: The case of Łódź, Poland

- Sunday retail restrictions and the pandemic have had impacts on travel behaviours
- Sunday trips have changed, as some people have completely stopped travelling
- A survey was conducted among 6,000 residents using mixed-mode techniques
- The results could be used to design city policies for sustainable urban mobility

Marcel HORŇÁK, Richard HLUŠKO, Alena ROCHOVSKÁ, Veronika LELKESOVÁ

Public transport accessibility and spatial exclusion in Roma settlements: A case study of three regions in Eastern Slovakia

- Public transport is an important means of mobility for poor Roma communities
- Access to public transportation in geographical reality is not perfect for all
- Segregated Roma communities usually have poorer access to transport networks
- Poor access to transport and services to regional centres may lead to social exclusion

Dominik SIKORSKI, Agnieszka LATOCHA, Przemysław TOMCZAK, Robert SZMYTKIE, Paulina Miodońska, Katarzyna KAJDANEK

Changes in the services of general interest in mountainous areas in Poland over the period 1988-2020 – their types, dynamics and driving forces

- Changes in the services of general interest (SGI) in mountainous areas are analyzed
- The SGI became concentrated in towns and some villages with tourist infrastructure
- Access to SGI in peripheral rural areas has become more difficult in recent years
- Availability of SGI is related to the population, tourist functions and location
