**Institute of Botany  
Academy of Sciences of the Czech Republic  
252 43 Průhonice**

**Index Seminum represents the list of seeds offered for exchange to Botanical Gardens and Institutes.**

Průhonice is a village located on the southeastern edge of the city of Prague. Motorway D1 linking Prague and Brno passes nearby. It takes only about 10 to 15 minutes by car to reach Průhonice from the centre of Prague.

Editor: RNDr. Lenka Moravcová, CSc.

Location of the Průhonice park

Latitude: N 49° 58' 43" – 50° 00' 06"

Longitude: E 14° 32' 16" – 14° 34' 26"

Altitude: 281 - 342 m

Area: 244 hectares (2,44 km<sup>2</sup>)

Mean annual precipitation: 610 mm (1929–1958)

Mean annual temperature: 8,6 °C (1929–1958)

1. *Acanthopanax senticosus* (RUPR. et MAXIM.) HARMS
2. *Acanthopanax sessiliflorus* (RUPR. et MAXIM.) SEEM.
3. \**Acer laxiflorum* PAX
4. \**Acer nikoense* MAXIM.
5. \**Acer platanoides* L. 'Reitenbachii'
6. \**Acer tataricum* L.
7. *Actaea pachypoda* ELLIOT
8. \**Aesculus hippocastanum* L.
9. *Aralia racemosa* L.
10. *Aralia spinosa* L.
11. *Aruncus vulgaris* RAFIN.
12. *Calendula officinalis* L.
13. *Callicarpa dichotoma* (LOUR.) K.KOCH

14. *Campanula latifolia* L.
15. *Carya laciniosa* (MICHX. fil.) LOUD.
16. *Carya tomentosa* (LAM.) NUTT.
17. *Cephalotaxus harringtonii* (KNIGHT ex J.FORBES) K.Koch
18. *Cercis canadensis* L.
19. *Chaenomeles japonica* (THUNB.) LINDL. ex SPACH
20. *Chionanthus virginicus* L.
21. *Clethra barbinervis* SIEB. et ZUCC.
22. *Cornus mas* L.
23. *Cornus sanguinea* L.
24. *Cotoneaster* ×*watereri* EXELL
25. ×*Crataegomespilus dardari* SIMON-LOUIS
26. *Davidia involucrata* BAILL. subsp. *vilmoriniana* (DODE) HOLUB
27. *Decaisnea fargesii* FRANCH.
28. *Elaeagnus commutata* BERNH. ex RYDB.
29. *Euonymus europaea* L.
30. *Euonymus sachalinensis* (FR. SCHMIDT) MAXIM.
31. *Exochorda grandiflora* (HOOK.) LINDL.
32. *Gentiana asclepiadea* L.
33. *Holodiscus discolor* (PURSH) MAXIM.
34. *Inula helenium* L.
35. *Juglans ailantifolia* CARR. var. *cordiformis* (MAXIM.) REHD.
36. *Koelreuteria paniculata* LAXM.
37. *Kolkwitzia amabilis* GRAEBN.
38. *Ligustrum ibota* SIEB. et ZUCC.
39. *Liriodendron tulipifera* L.
40. *Lonicera alpigena* L.
41. *Maackia amurensis* RUPR. ex MAXIM.
42. *Mahonia aquifolium* (PURSH) NUTT.
43. *Mahonia repens* (LINDL.) G.DON
44. *Malus sargentii* REHDER
45. *Morus bombycis* KOIDZ.
46. *Phellodendron amurense* RUPR.
47. *Phellodendron chinense* C.K.SCHNEID.
48. *Photinia villosa* (THUNB.) DC.

49. *Physocarpus opulifolius* (L.) MAXIM.
50. *Prunus domestica* L.
51. *Prunus cerasus* L.
52. *Ptelea trifoliata* L.
53. *Pyracantha coccinea* M.J.ROEM. 'Lalandei'
54. \**Quercus ilicifolia* WANGENH.
55. \**Quercus palustris* MUENCHH.
56. \**Quercus rubra* L.
57. *Rhamnus imeretina* Booth, Petz. et H.KIRCHN.
58. *Rhodotypos scandens* (THUNB.) MAKINO
59. *Rosa glauca* POURR.
60. *Rosa rugosa* THUNB.
61. *Rubus coreanus* MIQ.
62. *Rubus phoenicolasius* MAXIM.
63. *Rubus* 'Thornless'
64. *Sidalcea malviflora* (DC.) A.GR.
65. *Symplocos paniculata* (THUNB.) MIQ.
66. *Syringa wolfii* C.K.SCHNEID.
67. *Telekia speciosa* (SCHREB.) BAUMG.
68. *Tilia platyphyllos* SCOP. subsp. *cordifolia* (BESSER) C.K.SCHNEID.
69. *Torreya nucifera* (L.) SIEB. et ZUCC.
70. *Tripterygium regelii* SPRAGUE et TAKEDA
71. *Tsuga canadensis* (L.) CARRIÈRE
72. *Vaccinium corymbosum* L.
73. *Viburnum lantana* L.
74. *Viburnum rhytidophyllum* HEMSL.

\* species will be collected on request in 2009

## II. Seeds collected in the Třeboň aquatic and marsh plants collection – Czech Republic

---

A. Kučerová, E. Navrátková, L. Adamec

Location of the Třeboň macrophytes collection:

Latitude: N 49° 00'

Longitude: E 14° 46'  
Altitude: 433 m  
Area: 0.3 ha  
Mean annual precipitation: 627 mm (1901–1950)  
Mean annual temperature: 7.8 °C (1901–1950)

75. *Achillea ptarmica* L.
76. *Agrostis canina* L.
77. *Agrostis gigantea* Roth.
78. *Alisma gramineum* LEJ.
79. *Alisma plantago-aquatica* L.
80. *Alisma subcordatum* RAFIN.
81. *Alnus alnobetula* (EHRH.) K. KOCH.
82. *Alopecurus aequalis* SOBOL.
83. *Alopecurus geniculatus* L.
84. *Andromeda polifolia* L.
85. *Beckmannia eruciformis* (L.) HOST
86. *Betonica officinalis* L.
87. *Bidens cernua* L.
88. *Bidens radiata* THUILL.
89. *Blysmus compressus* (L.) LINK
90. *Bolboschoenus maritimus* (L.) PALLA s. str.
91. *Bolboschoenus yagara* (OHWI) Y.C. YANG et M. ZAHN
92. *Butomus umbellatus* L.
93. *Calamagrostis pseudophragmites* (HALLER fil.) KOELER
94. *Caltha palustris* L.
95. *Carex acuta* L.
96. *Carex acutiformis* EHRH.
97. *Carex bohémica* SCHREB.
98. *Carex brizoides* L.
99. *Carex buxbaumii* WAHLENB.
100. *Carex canescens* L.
101. *Carex cespitosa* L.
102. *Carex davalliana* SM.

103. *Carex demissa* HORNEM.
104. *Carex diandra* SCHRANK
105. *Carex distans* L.
106. *Carex disticha* HUDS.
107. *Carex echinata* MURRAY
108. *Carex elata* ALL.
109. *Carex elongata* L.
110. *Carex flacca* SCHREB.
111. *Carex flava* L.
112. *Carex flavella* KREZ.
113. *Carex grayi* CAREY
114. *Carex hartmanii* CAJANDER
115. *Carex hirta* L.
116. *Carex lasiocarpa* EHRH.
117. *Carex lepidocarpa* TAUSCH
118. *Carex melanostachya* WILLD.
119. *Carex nigra* (L.) REICHARDT
120. *Carex otrubae* PODP.
121. *Carex ovalis* GOOD.
122. *Carex pallescens* L.
123. *Carex panicea* L.
124. *Carex paniculata* L.
125. *Carex paupercula* Michx.
126. *Carex pseudocyperus* L.
127. *Carex remota* L.
128. *Carex riparia* CURTIS
129. *Carex secalina* WAHLENB.
130. *Carex tomentosa* L.
131. *Carex vesicaria* L.
132. *Carex vulpina* L.
133. *Carex ×elytroides* FRIES
134. *Carex ×vratislaviensis* FIGERT
135. *Catabrosa aquatica* (L.) P.B.
136. *Centaurium pulchellum* (SW.) DRUCE
137. *Ceratophyllum demersum* L.

138. *Centunculus minimus* L.
139. *Chenopodium glaucum* L.
140. *Chenopodium polyspermum* L.
141. *Chenopodium rubrum* L.
142. *Cicuta virosa* L.
143. *Cirsium palustre* (L.) SCOP.
144. *Cotula coronopifolia* L.
145. *Cyperus flavescens* L.
146. *Cyperus fuscus* L.
147. *Cyperus papyrus* L.
148. *Dactylorhiza incarnata* (L.) Soó
149. *Dactylorhiza majalis* (RCHB.) HUNT et SUMMERHAYES
150. *Deschampsia cespitosa* (L.) P.B.
151. *Drosera intermedia* HAYNE
152. *Drosera rotundifolia* L.
153. *Dryopteris cristata* (L.) A.GR.
154. *Echinochloa crus-galli* (L.) P.B.
155. *Eleocharis acicularis* (L.) ROEM. et SCHULT.
156. *Eleocharis ovata* (ROTH) ROEM. et SCHULT.
157. *Eleocharis palustris* (L.) ROEM. et SCHULT.
158. *Eleocharis quinqueflora* (F.X.HARTMANN) O.SCHWARZ
159. *Eleocharis uniglumis* (LINK) SCHULT.
160. *Epilobium hirsutum* L.
161. *Epilobium tetragonum* L.
162. *Epipactis palustris* (L.) CRANTZ
163. *Eriophorum angustifolium* HONCK.
164. *Eriophorum gracile* KOCH
165. *Eriophorum latifolium* HOPPE
166. *Eriophorum russeolum* FRIES
167. *Eriophorum vaginatum* L.
168. *Filipendula ulmaria* (L.) MAXIM.
169. *Geum rivale* L.
170. *Glyceria fluitans* (L.) R.BR.
171. *Glyceria maxima* (HARTMAN) HOLMBERG
172. *Gnaphalium uliginosum* L.

173. *Gratiola officinalis* L.
174. *Groenlandia densa* (L.) FOURR.
175. *Holcus lanatus* L.
176. *Hydrocotyle vulgaris* L.

- 283. *Zannichellia palustris* L.

**Ordering of the seeds**

**The seed is the result of open pollination. We cannot guarantee either its purity or germination. Please, write your desiderata on the enclosed order form which should be sent before April 1st 2009. Please, do not order more than 20 packages.**

**Please note:**

**Agreement on the exchange of plant material<sup>1</sup> in botanic gardens/ botanic collections for non-commercial use**

Since the Convention on Biological Diversity of 1992 (CBD) entered into force, it has become necessary for botanical gardens to comply in particular with Article 15 (Access to genetic resources), especially in connection with the exchange of plant material.

The garden is dedicated to the conservation, sustainable use and research of biological diversity. With regard to the acquisition, maintenance and supply of plant material, the garden therefore expects its partners to act in a manner that is consistent to the letter and the spirit of Biodiversity Convention, the Convention on International Trade in Endangered Species (CITES) and in compliance with all relevant laws relating to the conservation of biological diversity, access to genetic resources, associated knowledge and benefit-sharing.

**Consequently, only those persons and institutions who accept the following conditions will receive plant material from garden's collection:**

1. On the basis of agreement, the material is intended to serve for non-commercial purposes like scientific study, education and the interests of environmental protection. If the recipient intends to commercialise the material or if he intends to supply the material for commercial purposes, he has to obtain the Prior Informed Consent of the country of origin and to agree the terms and conditions of benefit sharing. In this context, the garden shall expressly indicate that, in the event of commercial use, the user is responsible for ensuring that there is suitable and equitable share of benefit.
2. Upon accepting plant material from the garden, the recipient is obliged to document in a comprehensible manner the information relating to the origin of the material (country of origin, first recipient garden, donor of the material, date of collecting in the wild) as well as the terms and conditions, under which the material has been acquired.
3. In the event that scientific publications on the plant material provided are produced, the origin of the material is to be cited. In addition, these publications are expected to be send to the garden automatically, without request.
4. The garden will forward information on the material supply on request to the authority instructed with the implementation of the CBD<sup>2</sup>.
5. The recipient may only supply plant material on the basis and under the conditions of this agreement and has to document the supply (list of transferred plants, recipient) in a comprehensible manner.

I accept the above conditions.

Date, Signature

Recipient's name, address and stamp

<sup>1</sup> Botanic Gardens normally exchange living plant material (living plants or part of plants, spores, diaspores). Since this Code of Conduct has been developed by Botanic Gardens in this context the term „ living plant material“ is used. Nevertheless, the living material from Botanic Gardens is usable as genetic resources as defined in the CBD.
