

Soil Zoological Problems in Central Europe

Proceedings of the 4th Central European Workshop on Soil Zoology

held in České Budějovice, Czech Republic, April 23-24, 1997

Edited by

Václav Pižl & Karel Tajovský

Institute of Soil Biology, Academy of Sciences of the Czech Republic,
České Budějovice, Czech Republic

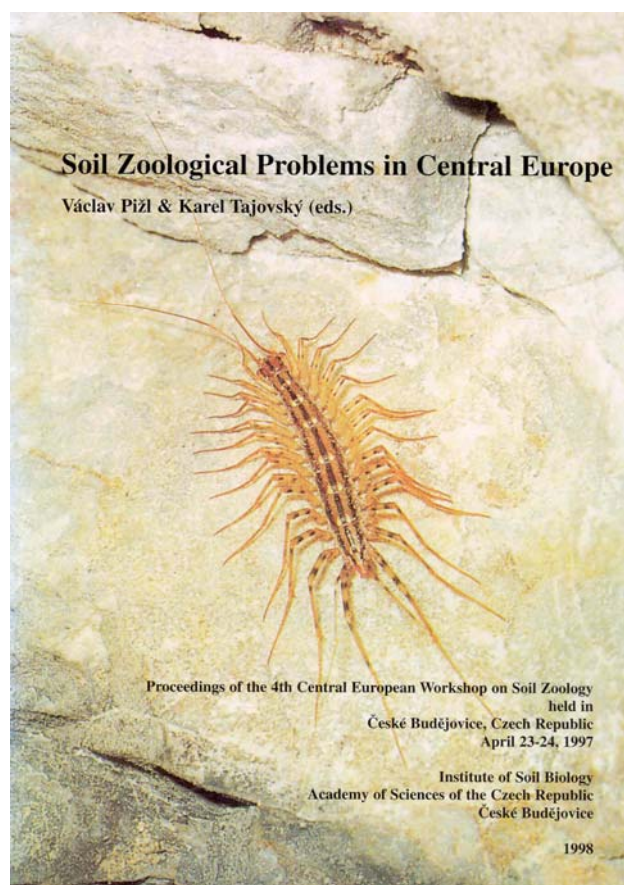

1998

ISBN 80-902020-4-7

Content

Rusek, J.: Preface ♦ Balik, V.: Soil testate amoebae (Protozoa, Rhizopoda) from the Antarctic ♦ Bauer, R.: The effect of diet on the supercooling ability of enchytraeids (Oligochaeta) ♦ Čarnogurský, J.: Influence of the simulated flood on the collembolan communities in the former seasonally flooded Danubian forest near the Gabčíkovo waterwork (Slovakia) ♦ Christian, E.: On disregarded biotopes and inadequate sampling: How rare are rare species? ♦ Fend'a, P., Krumpál, M. & Cyprieh, D.: The soil fauna in the birds' nests in Slovakia ♦ Frouz, J.: Changes of crane-flies (Tipulidae) larvae population during secondary succession ♦ Háněl, L.: Soil nematodes (Nematoda) in meadow and forest ecosystems of the Pálava Biosphere Reserve, Czech Republic ♦ Hopkins, D.W., Bignell, D.E., Chudek, J.A., & Webster, E.A.: Organic transformations in termite guts investigated with solid-state ¹³C nuclear magnetic resonance spectroscopy ♦ Hubert, J., Smrž, J. & Šustr, V.: Feeding of oribatid mite *Schelorbitates laevigatus* (Acari: Oribatida) in laboratory experiments: Preliminary results ♦ Ilieva-Makulec, K.: Life-history and population parameters of two bacterial-feeding nematodes ♦ Jäkel, A. & Roth, M.: Short-term effects of selected insecticides on non-target soil invertebrates of a forest ecosystem ♦ Kajak, A., Gałecka, B., Stanuszek, S., Stefaniak, O., Szanser, M., & Wasyluk, A.: Biomanipulation of macroarthropods - effect on decomposition and community structure ♦ Kampichler, C.: Modelling abundance of edaphic Collembola in an agricultural landscape by means of artificial neural networks ♦ Klimek, A. & Seniczak, S.: The mites (Acari) associated with salty soils from South Poland ♦ Kostecka, J.: Earthworm (Oligochaeta, Lumbricidae) communities in some natural sites in the Bieszczady Mts. (South-Eastern Poland) ♦ Kováč, L. & Miklisová, D.: Collembola (Hexapoda) of arable and inundated forest soils in the East-Slovak Lowland ♦ Krajča, A.: Penetration and colonization of spiders (Araneae) into the extensive nickel leach dump near Sereď (Slovakia) ♦ Krumpálová, Z.: The comparison of response of epigeic spider communities (Araneae) on the changes in ecosystem into the two inundation forests of the Danube river ♦ Kühle, J. C.: Spatial patterns of distribution of earthworms in a hardwood floodplain forest ♦ La France, M., Stiehler, C. & Roth, M.: Soil amelioration and re-afforestation with different tree species at sites highly polluted with acid rain - Effects on communities of saprophagous invertebrates ♦ Mommertz, S., Jell, B., Winter, K. & Filser, J.: How to quantify the contribution of microflora and microfauna to nitrogen mineralisation in agricultural soils? - Some remarks ♦ Pertov, P.: Changes in communities of Oribatida mites (Acari: Oribatida) during the plant succession on age different meadows ♦ Pižl, V.:

Earthworm communities in Pálava Biosphere Reserve (Southern Moravia) with special reference to the impact of floods ♦ Rožen, A.: Growth and reproduction of earthworms *Dendrobaena octaedra* and *Dendrodriulus rubidus* in artificial soil ♦ Rusek, J.: Changes in mesofauna communities of arable soils ♦ Schlaghamerský, J.: The enchytraeids of a beech forest on a basalt-limestone gradient ♦ Schmitt, G. & Roth, M.: Centipede and millipede communities in cultural landscapes of Northeast-Germany ♦ Seniczak, A. & Seniczak, S.: The influence of lead on the morphology of *Archezogozetes longisetosus* (Acari, Oribatida) ♦ Seniczak, S., D'browski, J., Klimek, A. & Kaczmarek, S.: The mites (Acari) associated with young scots pine forests polluted by the 'Wistom' chemical factory, Poland ♦ Sterzynska, M. & Ehrnsberger, R.: Collembola communities of different microhabitats of dunes (North Sea, Germany) ♦ Šustr, V. & Stary, J.: Digestive enzymes in oribatid mites: Impact of factors ♦ Szanser, M.: Advantages of using the simplified soil substrate in field mesocosm studies ♦ Tajovský, K.: Terrestrial arthropods (Oniscidea, Diplopoda, Chilopoda) of the Labské pískovce Protected Landscape Area (North Bohemia, Czech Republic) ♦ Tajovský, K.: To the distribution of the 'house-centipede' *Scutigera coleoptrata* Linnaeus, 1758 in the Czech Republic ♦ Tuf, I.H. & Ožanová, J.: Chilopoda and Diplopoda in different ecosystems of the Litovelské Pomoraví Protected Landscape Area ♦ Voigtländer, K. & Dunger, W.: Centipedes of the nature reserve „Leutrat“ near Jena (Thuringia, East Germany) ♦ Wanner, M., Dunger, W., Schulz, H.-J. & Voigtländer, K.: Primary immigration of soil organisms on coal mined areas in Eastern Germany ♦ Weyda, F.: Absorption of water by eversible vesicles in Archaeognatha (283 pages in total)
