## **Abstract**

This is the abstract of the paper, printed in 9pt characters.

## **1 Introduction**

These are instructions how to prepare a paper for 7th Workshop on Uncertainty Processing WUPES'06 (Mikulov, Czech Republic, 16 - 20th September, 2006).

## **2 Typing Instructions**

### **2.1 Fonts**

The text of the paper should be single-spaced, written in 10pt characters (Roman, or similar).

### **2.2 Pages**

The height of one page should not exceed 18.5 cm, its width should be 12 cm. Recommended length is 8 - 12 pages.

#### **2.2.1 Running headers**

At the top of the paper, running headers are placed. Please note, that there are **different running headers** on odd and even pages.

### **2.3 Warning**

Please, **do not enlarge the size** of the page!!!

### **2.4 Template**

If you prepare your paper in LaTeX, the best possibility how to follow these instructions, is to use our template.

## 2.5 Contact

If you have any problems with using our template, do not hesitate to send an e-mail to [vejnar@vse.cz](mailto:vejnar@vse.cz).

## 3 Submission

Only submissions of electronic versions will be possible. Every submission must contain:

- LaTeX file,
- .cls or .sty files (if necessary),
- .pdf file.

Please, send us your paper **before August 1, 2006**. No submission received after this date can be included in the proceedings!!!
