

## **Regular IMG seminars**

**Dr. Jan Konvalinka**

*Institute of Organic Chemistry and Biochemistry AS CR, v. v. i.*

### **„Protease of Human Immunodeficiency virus: weird inhibitors for strange mutants“**

Dr. Konvalinka is a prominent Czech biochemist (and excellent speaker) working on a number of topics, including novel types of scientifically interesting and potentially clinically useful HIV protease inhibitors.

See Pubmed for his impressive list of recent publications in prestigious journals.

The seminar will be held

**on Wednesday 11. 2. 09 at 15.00**

**in the Milan Hašek Auditorium.**
