

Brief Introduction of Candidate's Electoral Program for IOCB Board of Institution Election 2011

RNDr. Eva Šťastná, Ph.D.

1. I would like to utmost utilize and implement the enlightenment gain at the top-class Washington University School of Medicine, St. Louis, Missouri, USA to improve the activity and the output of the IOCB itself and the IOCB Board of Institution as well in scientific, managerial, financial, and social manner.
2. With respect to the current situation of the scientific research financing, I would like to build a project/working group focusing on the support, motivation and mainly training of the young scientists to help and inspire them in the process of seeking for their own grant support.
3. I would like to set a project/working group evolving, motivating, and working towards the awareness and the interest of the IOCB scientists to invent and focus their attention to projects aiming to patents and commercialization of the intellectual property.
4. Further, in conjunction with previously mention point; to work towards extension of the interdisciplinary cooperation of the IOCB scientists with other Institutes of the Academy of Sciences, Universities, and the Industry to advance our synthetic and biochemical methods development and synthesis of biologically active compounds.
