Deadline 31 May 2006.

Apply now for 50% reduction of the course fee

eppendorf

TATAA Biocenter has offered regular hands-on qPCR training courses since 2001 and feedback has been exceedingly positive. In Prague TATAA Biocenter in collaboration with Dr Jiri Jonak and the Institute of Molecular Genetics at the Academy of Sciences of the Czech Republic offers a four-day course based on theoretical seminars and approximately 50% practical hands-on training with experienced supervision.
