

FOR FULL-TIME RESEARCHER POSITION IN THE FIELD OF IMAGE DATA PROCESSING AND ANALYSIS

We are seeking a young expert – postdoc for the Department of Biology of the Cell Nucleus.

TASKS:

- Supporting the research team with image data processing and analysis.
- Coordinating training in biomedical imaging for graduate and PhD students.
- Participating in educational activities as a teacher.

Department's website: <http://www.img.cas.cz/research-groups/pavel-hozak/>.

REQUIREMENTS:

- PhD (or equivalent) in biology or biomathematics - due to rules of project set by grant provider only post-docs who obtained their PhD since April 2008 are eligible for the positions
- a good command in English
- experience with 3D reconstructions and/or spatial statistics is an asset

The position is available immediately till June 2015. After this period, successful researchers will have the opportunity to get further appointments within the EU-funded BIOCEV research centre (www.biocev.eu).

WE OFFER:

- a new state-of-the-art equipped centre with experienced colleagues
- excellent collaboration conditions
- a competitive salary
- international working environment
- fellowships and other opportunities for international cooperation

The job application has to be in English consisting of a letter of interest, structured CV with the list of publications and two references (2 persons including their contact details – email + phone).

For further information please contact Ms Marketa Morska via email at morska@img.cas.cz. The applications should be sent to that email as well. We thank all who apply for their interest; however, only those candidates who are considered for an interview will be contacted.
