

ACADEMY OF SCIENCES OF THE CZECH REPUBLIC

Based upon Act No. 283/1992 Coll., on the Academy of Sciences of the Czech Republic, as subsequently amended, and upon Act No. 341/2005 Coll., on public research institutions, and in accordance with the Statutes of the Academy of Sciences of the Czech Republic issued on 24 May 2006, the Academy of Sciences of the Czech Republic (hereinafter ASCR) hereby issues

the Foundation Deed of the Institute of Analytical Chemistry of the ASCR, v. v. i.

I.

(1) The Institute was established by a resolution of the fourth session of the Presidium of the Czechoslovak Academy of Sciences (hereinafter CSAS) held on 17 February 1965, which took effect on 1 January 1966, under the name the Institute of Instrumental Analytical Chemistry of the CSAS. Pursuant to the resolution of the forty-ninth session of the Presidium of the CSAS held on 6 June 1973, the Institute was renamed the Institute of Analytical Chemistry of the CSAS, effective 1 January 1974. Under section 18 (2) of Act No. 283/1992 Coll., the Institute became an entity of the ASCR as of 31 December 1992.

(2) Under Act No. 341/2005 Coll., the legal status of the Institute of Analytical Chemistry of the ASCR will be transformed from a state contributory organisation into a public research institution (abbreviated as v. v. i.) from 1 January 2007.

II.

(1) The Institute of Analytical Chemistry of the ASCR, v. v. i., (hereinafter IAC) is established for an indefinite period as a legal entity with identification number 68081715, and is located in Brno, Veveří 967/97, Postal Code 602 00.

(2) The founder of the IAC is the ASCR, an organisational body of the state, identification number 60165171, headquartered in Prague 1, Národní 1009/3, Postal Code 117 20.

III.

(1) The purpose for which the IAC has been established is to carry out scientific research in the field of analytical chemistry and in the field of its practical application, to contribute to the utilisation of its research results, and to provide a research infrastructure.

(2) The principal activity of the IAC is scientific research in the field of analytical chemistry, in particular research of analytical and bioanalytical micromethods, nanomethods and methods for determination of trace element concentrations of substances, and the development of instrumental techniques as the basis for enhancing knowledge and a methodological level of other scientific disciplines,

industrial activity and environmental protection. The IAC contributes to raising the level of knowledge and education and to utilising the results of scientific research in practice. It acquires, processes and disseminates scientific information and issues scientific publications (monographs, journals, proceedings, etc.). It provides scientific assessments, professional opinions and recommendations, consulting and advisory services. In cooperation with universities, the IAC carries out doctoral study programmes and provides training for young scientists. Within the scope of its activity, the IAC promotes international cooperation, including the organisation of joint research projects with foreign partners, participation in exchange programmes for scientists and the exchange of scientific information, as well as the preparation of joint publications. The IAC organises scientific meetings, conferences and seminars at the national and international levels and provides the infrastructure for research. It pursues its aims both independently and in cooperation with universities and other research and professional institutions.

IV.

(1) The director, the Board and the Supervisory Board are the bodies of the IAC. The director is the statutory body of the IAC and is entitled to act on behalf of the IAC.

(2) Basic organisational units of the IAC are scientific departments responsible for research and development, and service units and centres responsible for provision of the infrastructure.

(3) The detailed organisational structure of the IAC is regulated by rules of organisation issued by the director after being approved by the Board.

V.

The foundation deed will become effective on 1 January 2007 and will supersede the foundation deed of the Institute of Analytical Chemistry of the ASCR dated 1 September 1993, as subsequently amended by a modification dated 25 May 1998 and Addendum No. 1 dated 11 December 2003 (the full text having been issued on 12 December 2003).

Prague, 20 December 2006
Ref. No.: K-551/P/06

Prof. Václav Pačes
President of the ASCR
