

**The department of Transgenic Model Diseases together with Transgenic Unit, Institute of Molecular Genetics, v.v.i. , Prague 4**

invites applications for the following

**OPEN POSITION**  
**Breeding specialist**

**JOB DESCRIPTION:**

This is a technical position in Transgenic Unit. You will work with mice/rat database, be responsible for breeding and colony preservation of transgenic mice produced in TgU. As a member of transgenic unit of IMG you will be expected also to participate in the production of transgenic mice (mouse/mouse embryo handling, cell cultivations).

**REQUIREMENTS:**

Candidates should possess a university degree in biology/biochemistry/biotechnology, should have experienced in animal husbandry, and have knowledge in mouse/rat genetics and transgenic technologies. Those candidates who have practice in mouse/rat colony management are especially encouraged to apply. English communication skills are absolutely necessary.

**WE OFFER:**

Work in international environment, attendance on international meetings, further self-education possibilities, interesting topics, and competitive salary.

**HOW TO APPLY**

The job application has to be in English consisting of a letter of interest and CV. For further information please contact project coordinator Mr. Libor Daněk at [libor.danek@img.cas.cz](mailto:libor.danek@img.cas.cz). The applications should be sent to that email as well.

We thank all who apply for their interest; however, only those candidates who are considered for an interview will be contacted.
