INVITATION

for an international Conference

Boii between Reality and Fiction

14th – 16th November 2013
in Český Krumlov, *Boiohaemum*

In the recent years, the discussions concerning the Celtic people of Boii have become lively once more. For this reason, our intention is to scrutinise once again the relevant archaeological, historical and numismatic evidence and to discuss it on a wide international platform.

From what time and in what area can we speak about the Boii?

What archaeological finds can we label as „Boian“?

Did a Boian monetary economy exist?

May Bohemia be identified as *Boiohaemum*?

What relations did *Boiohaemum* maintain with the neighbouring regions?

Where did the Boii end up?

The conference languages: German, English, French.

The conference fee will be up to 40 €; convenient accommodation possibilities will be provided.

The contact person for the registration is Vladimír Salač.

The papers will be published in the series “Kolloquien zur Vor- und Frühgeschichte” by the RGK.

Organisers

Vladimír Salač
