

Definition from Wikipedia:

Slave: A person who is legally obliged by prior contract (oral or written) to work for another, with contractually limited rights to bargain.

<http://en.wiktionary.org/wiki/slave>

Chattel slavery, so named because people are treated as the personal property, chattels, of an owner and are bought and sold as commodities, is the original form of slavery.

<http://en.wikipedia.org/wiki/Slavery>

The copyright “agreement” does not allow me to put my own work on my own webpage.

Předmět: Final published version of your Smart Mater. Struct.paper posted online

Datum: Fri, 30 Aug 2013 16:20:36 +0100

Od: Copyright <Copyright@iop.org>

Komu: krejci@math.cas.cz

Dear Dr Krejci,

I hope you are well.

This is just a quick note to draw your attention to the terms upon which you assigned copyright in your article *Fully coupled modeling of magnetomechanical hysteresis through 'thermodynamic' compatibility*, which was recently published in IOP's journal *Smart Materials and Structures*.

Since I see you were not the corresponding author on that paper, it may be that you are unaware of the specific terms of the Assignment.

IOP grants back to authors the right, following the expiry of a 12 month embargo period, to post the Accepted Manuscript of their articles to their institutional repository or website and to third party, non-commercial websites. We define the Accepted Manuscript as the original version after any changes made during peer review but before any editing, typesetting etc. by the publisher. We request that authors do not post the Final Published Version (ie the version typeset and published by IOP) of their article.

Therefore, I should be very grateful if you would arrange for the removal of the version of the article hosted at http://www.math.cas.cz/fichier/publication/archive/41/publication_pdf_20130819190609_27.pdf and its replacement with a link (via DOI) to the version of record. Following the expiry of the embargo period, you may post your own version of the article.

You can read more about IOP's policies in our Copyright FAQs: <http://authors.iop.org/atom/help.nsf/0/C643C5BA22858ED780257AA200413D5E?OpenDocument>. If you wish me to forward a copy of the Assignment, I would be happy to do so.

Thank you in advance for your cooperation. If you have any questions, or if there is more I can do to help, please let me know.

Kind regards,

Laura Sharples
