

## SOLARIS

(UEB 3369/4) was produced by crossing Topaz with UEB 2345/1  
Community Plant Variety Rights EU 34437 from 18. 03. 2013

- Origin:** Institute of Experimental Botany Prague (Strizovice), CZ
- Tree:** Diploid, medium vigorous, ramified, upright, good branching
- Blossom:** Mid-season
- Picking time:** Early October, with Golden Delicious
- Productivity:** Semi-precocious, medium to heavy
- Keeping quality:** In natural storage until April
- Fruit:** Medium size, shape conical, height : width ratio 0,92, stem medium long, skin smooth, appears russet free, ground color green yellow, later yellow, seldom with a slight red-orange blush, flesh yellow, firm, crisp, juicy, well balanced sugar and acid level, good flavour
- Diseases:** Resistant to scab (*Vf*), tolerant to mildew
- Comment:** A winter, yellow, good dessert apple variety with resistance against scab (*Vf*) and good storage qualities and shelflife, light thinning is recommended for regular bearing
