

The Czech Centre for Phenogenomics (CCP),

Institute of Molecular Genetics ASCR v.v.i.,

invites applications for the following

OPEN POSITION

Transgenic Technologist/Microinjectionist (m/f)

JOB DESCRIPTION

The Transgenic and Archiving unit of the Centre for Phenogenomics is currently seeking a highly motivated transgenic technologist to join our international team. The post is available from September 2015.

KEY RESPONSIBILITIES

- Manipulation and injection of mouse embryos using micromanipulators
- Cryopreservation of sperm and embryo samples
- General laboratory work including media preparation, mouse embryonic stem cell culture, genotyping, and documentation

REQUIREMENTS:

Candidates should either possess a bachelor's or master's degree in biology, molecular biology, biotechnology or related subject or should be educated at secondary school with focus in natural science, biology or molecular biology. Experience in rodent handling as well as knowledge in rodent genetics and transgenic technologies would be advantageous. Candidates must be fluent in English, have good interpersonal and communication skills and be able to work independently as well as part of a team.

WE OFFER:

You will work as part of our young, multidisciplinary and international team. Opportunities for personal development and learning new skills will also be possible. We offer interesting and unique topics, and a competitive salary.

HOW TO APPLY

The job application has to be in English consisting of a covering letter and structured CV; deadline for applications is September 30, 2015. For further information please contact project coordinator Mr. Libor Danek at libor.danek@img.cas.cz.

We thank all who apply for their interest; however, only those candidates who are considered for an interview will be contacted.
