CONFERENCE DATE AND VENUE

The NESAT XIII symposium will be organized by the Institute of Archaeology of the Czech Academy of Sciences, Prague, v. v. i., and the Faculty of Textile Engineering, Technical University of Liberec in cooperation with Prague Castle Administration. The event will be held on 22–26 May 2017, at the Technical University in Liberec, building G, Studentská Street 2, Liberec, Czech Republic.

CONFERENCE GOALS

Following the example of the previous conferences in Esslingen (Germany) and Hallstatt (Austria), NESAT XIII will cover the subject of prehistoric and historic textile finds, focussing on the contextual analysis of finds and new methods. Papers on other current research topics related to archaeological textiles are also welcome. The organizers encourage papers that present lesser-known or recently excavated textiles, techniques and iconography that will generate discussion and exchange of information among conference attendees. In addition, this conference will include a poster session. Posters can be focussed on any topic related to archaeological textiles, but should be primarily visual.
