

# Evolutionary Zoology workshop

## for Ph.D. students

Tuesday 1st October 2019, Liběchov

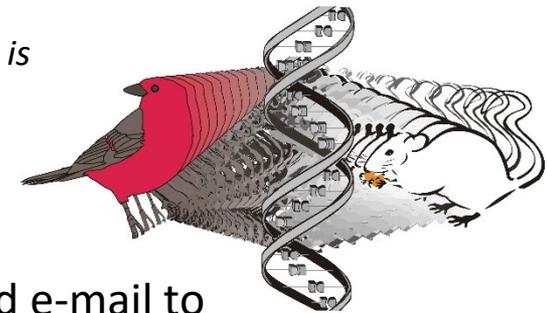

*joint project of the Division of Animal Evolutionary Biology  
(Department of Zoology, Faculty of Science, Charles University),  
the Institute of Vertebrate Biology of the Czech Academy of Sciences,  
and the Institute of Animal Physiology and Genetics of the Czech Academy of Sciences*

**Program comprises talks of advanced students (mainly at the beginning of the 2nd or 5th year of their Ph.D. study). However, other students (including undergraduates) are also welcome to participate and introduce their work. The length of presentation should be around 10 minutes and may cover the main findings of the Ph.D. project or just a selected part.**

Students, researchers and teachers of other institutions are very welcome to participate in discussions or to present their results.

*Self-organised social program is expected before and after the workshop. Hence it is possible and very welcome to arrive on Monday and leave on Wednesday.*
