

CAS - DAAD 2018-2019

Project ID number	Project title	CAS institute	Section	Czech principal investigator	Foreign institute	Foreign principal investigator
DAAD-18-02	Towards novel bioactive compounds: characterization of specialized metabolites encoded on unique biosynthetic gene clusters.	Biology Centre of the CAS, Institute of Soil Biology	II	CHROŇÁKOVÁ Alica	Eberhard-Karls-Universität Tübingen	KAYSSER Leonard
DAAD-18-07	Investigation of Structure and Equation of State of Warm Dense Matter.	Institute of Physics of the CAS	I	FALK Kateřina	Technische Universität Darmstadt	ROTH Markus
DAAD-18-08	High resolution transmission spectroscopy to characterize exo-atmospheres.	Astronomical Institute of the CAS	I	KABÁTH Petr	European Southern Observatory	BOFFIN Henri
DAAD-18-09	Control of lipid storage and metabolism by bZIP protein complexes in the male germline.	Institute of Experimental Botany of the CAS	II	HONYS David	University of Göttingen	ISCHEBECK Till
DAAD-18-11	Overlapping regulons of sigma factors of RNA polymerase in <i>Corynebacterium glutamicum</i> .	Institute of Microbiology of the CAS	II	PÁTEK Miroslav	Bielefeld University	KALINOWSKI Jörn
