

Pursuant to Act No. 283/1992 Coll., on the Czech Academy of Sciences, as amended, Act No. 341/2005 Coll., on public research institutions, as amended, and in accordance with the Statutes of the Czech Academy of Sciences dated 24 May 2006, the Czech Academy of Sciences hereby issues

**the Full Text of the Foundation Deed of
the Institute of Physics of the Czech Academy of Sciences
(in Czech “Fyzikální ústav AV ČR, v. v. i.”)**

dated 28 June 2006 (English version dated 20 December 2006), as amended by Addendum No. 1 dated 1 October 2014:

I

(1) The Institute has been established by the resolution of the twenty-sixth session of the Presidium of the Czechoslovak Academy of Sciences (hereinafter the “CSAS”) held on 18 December 1953 effective from 1 January 1954, under the name the Institute of Physics of the CSAS. Under section 18 (2) of Act No. 283/1992 Coll., the Institute became an entity within the Czech Academy of Sciences as of 31 December 1992.

(2) Under Act No. 341/2005 Coll., the legal status of the Institute of Physics of the Czech Academy of Sciences was transformed from a state contributory organisation into a public research institution (abbreviated in Czech as “v. v. i.”) from 1 January 2007.

II

(1) The Institute of Physics of the Czech Academy of Sciences (hereinafter the “IP”) is established for an indefinite period of time as a legal entity, identification number 68378271, headquartered in Prague 8, Na Slovance 1999/2, postal code 182 21.

(2) The founder of the IP is the Czech Academy of Sciences, an organisational body of the state, identification number 60165171, headquartered in Prague 1, Národní 1009/3, postal code 117 20.

III

(1) The purpose for which the IP has been established is to carry out scientific research in the field of physics, to contribute to the utilisation of its research results, and to provide the research infrastructure.

(2) The principal activity of the IP is scientific research in the field of physics, especially the physics of elementary particles, condensed systems, plasma and optics, including contractual research. The IP contributes to raising the level of knowledge and education and to utilising the results of scientific research in practice. It acquires, processes and disseminates scientific information, issues scientific publications (monographs, journals, proceedings, etc.). It provides scientific assessments, professional opinions and recommendations, consulting and advisory services. In cooperation with universities, the IP carries out doctoral study programmes and provides training for young scientists. Within the scope of its activity, the IP promotes international cooperation, including the organisation of joint research projects with foreign partners, participation in exchange programmes for scientists and the exchange of scientific information, as well as the preparation of joint publications. The IP organises scientific meetings, conferences and seminars on the national and international levels and provides the infrastructure for research including making available its facilities to the subjects of the application domain and the provision of accommodation for its employees and guests. It pursues its aims both independently and in cooperation with universities and other research and professional institutions.

(3) The other activity of the IP is production, trade and services in the fields of scientific activities of the IP, namely testing, measurement, analysis and supervision; advisory and consultancy services, expert studies and expertise; organizing courses and training, which includes teaching; creating and providing software; preparing and elaborating technical proposals; evolving substances, fabric, machines, instruments, devices and processes; repairing special machines, instruments and devices; machining, forming, surface fittings, heat fabrication, combination and other fabric manufacturing. Further activity includes power production. Conditions of the other activity are determined by the respective entrepreneurial authorisations and Act No. 341/2005 Coll. The total extent of the other activity may not exceed 10 percent of the working capacity of the IP.

IV

(1) The director, the board and the supervisory board are the bodies of the IP. The director is the statutory body of the IP and is entitled to act as a deputy for the IP.

(2) The basic organisational units of the IP are scientific sections responsible for research and development, and service departments responsible for provision of the research infrastructure. Scientific sections are divided into scientific departments and support departments.

(3) The detailed organisational structure of the IP is regulated by the rules of organisation issued by the director after being approved by the board.

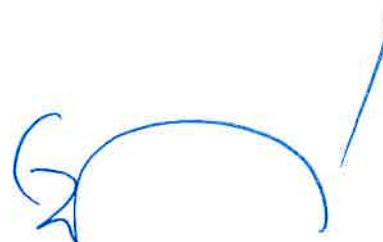

V

This Foundation Deed shall be effective as of 1 October 2014.

Prof. Ing. Jiří Drahoš, DrSc., dr. h. c.
President of the Czech Academy of
Sciences

The resolution of the twentieth session of the Academy Council of the Czech Academy of Sciences held on 15 July 2014 changed the official English translation of the name from the former "Academy of Sciences of the Czech Republic" to "Czech Academy of Sciences" as of 1 January 2015.
