

# Public Plenary Lecture, Sunday, August 11, 18:00

Kotěra lecture hall, Faculty of Architecture,  
Czech Technical University, Thákurova 9, Praha 6

## *What if meaning is indeterminate? Ramsification and Semantic Indeterminacy*

### **Hannes Leitgeb**

Munich Center for Mathematical Philosophy, LMU Munich, Germany

*Abstract:* Can we still use classical logic and semantics if the interpretation of natural language terms, mathematical terms, and scientific terms is not uniquely determined? This talk will develop a positive answer by applying a method that goes back to F. P. Ramsey: we only need to “Ramsify” semantics.

The lecture is a joint event of the

16th INTERNATIONAL CONGRESS ON LOGIC, METHODOLOGY  
AND PHILOSOPHY OF SCIENCE AND TECHNOLOGY

and the

LOGIC COLLOQUIUM 2019, EUROPEAN SUMMER MEETING  
OF THE ASSOCIATION FOR SYMBOLIC LOGIC

The lecture is open to the public, no registration is required.  
A welcome drink will be served one hour before the lecture.
