

# Aswath Damodaran's Corporate Finance – It is big picture, it is applied & it is fun!

Take a top-tier MBA-level class in Corporate Finance, debate with students, deepen your knowledge of how to run and value a business. Free of charge. Accompanied by live skype sessions with professor Damodaran. Join the Applied Economics Discovery Hub at CERGE-EI.

The Applied Economics Discovery Hub is open to students and young professionals who wish to transfer and apply the theoretical knowledge of economics to real-life challenges. It provides a wide range of activities allowing you to examine what is applied economics really about and to find out whether it is the right field of study for you.

In Fall 2015 we run Aswath Damodaran's Corporate Finance Class. The course will replicate the original class as taught at the New York University Stern School of Business and will be using only genuine in-class materials. Sessions will take place at CERGE-EI (Politických vězňů 7, Prague 1). Successful participants will gain a certificate of attendance.

- **Corporate Finance / Starts 7 October 2015 / Wednesdays 19:45 – 20:45**

*“There are times I wish that I could clone myself and teach in a dozen places at the same time, including Prague. Since I don't seem to have the power to do that, the Corporate Finance Course prepared by CERGE-EI's graduate Jindřich Gallo may be the next best option. I hope that my material forms the basis for a good valuation class but I believe that valuation is a craft you learn by doing. As you work through your valuation issues, I will try to make some live experiences to answer your questions. I hope to see you there.”*
