

Adsorption and Processes on Catalytic Electrodes

22.-25.4.1968

Liblice

Program:

1. Catalytic nature of the electrode

R.Parsons (Bristol), chairman W.Vielstich (Bonn)

2. Hydrogen evolution

B.E.Conway (Ottawa), chairman E.Yeager (Cleveland)

3. Oxygen reduction

J.Říha (Prague), chairman J.O'M.Bockris (Philadelphia)

4. Oxidation of organic substances

V.S.Bagotskii (Moscow), chairman K.Vetter (Berlin)
