**Institute of Molecular Genetics of the Czech Academy of Sciences**

Opens a new position

**HEAD OF RESEARCH GROUP**

The Institute of Molecular Genetics of the Czech Academy of Sciences is a leading Czech research institute in the field of molecular biology and genetics ([www.img.cas.cz](http://www.img.cas.cz)), which offers an international environment and state-of-art research facilities. We are looking for an outstanding scientist to establish a research team and address original research questions within the scope of the Institute (see below). The position is initially offered for five years with the possibility of further extension based on the international evaluation. The Institute will provide laboratory space in its new building located at the BIOCEV Biomedical Centre in Vestec near Prague, salary, start-up funds, institutional support and laboratory equipment.

**Eligibility:**

- At least two years of postdoctoral experience
- Excellent publication record
- Applicants from any area of molecular, cell and developmental biology, cancer biology, genetics, virology, and molecular immunology are encouraged to apply.

**The deadline for the application is June 30, 2022.** The applicant should provide the following documents to the Director of the Institute (email: [office@img.cas.cz](mailto:office@img.cas.cz)):

1. Professional CV
2. List of publications
3. Five major achievements
4. Synopsis of previous research (maximum two pages)
5. Proposal (maximum 5 pages) of the research program of the group for the first three years; the document should include the financial plan of the group and requirements for laboratory space and equipment.
6. Two letters of support

**The pre-selected candidates will be invited for a personal interview. Final results are expected to be announced in October 2022, and the new research group will be established in 2023.**
