On-line seminars

Participants:

- Must have a good and stable internet connection (plugged to ethernet at campus is the best option)
- Must have installed the computer program Zoom or have a compatible web-browser
- Must pay attention to sources of light and noise
- Be mindful of your background

We recommend:

- That a headset with a microphone is used
- That only participants sit in a room with you during the seminar
- That you have Zoom on your smartphone as backup

On-line seminars

Please remember during streaming:

The world can see you

- Please mute microphone when you are not speaking
- Turn of camera when you are not part of the discussion
- Do not share the screen before you are going to be an active part of the discussion
