

Regular Wednesday IMG seminar

Anna Markos, M.Sc.

Laboratory of Transcriptional Regulation

“Life with head”

Invertebrate chordate amphioxus is used as a model organism in evolutionary studies because it can provide essential insight into the origin of vertebrates. Our work on amphioxus aims to uncover both the ancestral features of chordate body plan as well as vertebrate innovations.

The seminar will be held

on Wednesday 8th February 2023 at 15:00

in the Milan Hašek Auditorium at IMG

(Institute of Molecular Genetics of the Czech Academy of Sciences, Vídeňská 1083, Prague 4)
