

Czech Centre  
for Phenogenomics

# 5<sup>th</sup> CCP Phenogenomics Conference 2023

Prague & on-line • 14 - 15 September

## Main topics

- Rare diseases
- Experimental models
- Delivery of therapies
  
- Engineered Allele Validation Workshop

## Keynote speaker

- **James Noonan**  
Yale School of Medicine,  
United States

## Invited speakers

- Marcello Maresca, Sweden
- Hans Tómas Björnsson, Iceland
- Annique Claringbould, Germany
- Illana Gozes, Israel
- Marián Hajdúch, Czechia
- Hana Hanzlíková, Czechia
- Axel Schambach, Germany
- Ras Trakovic, Finland
- Jan Tuckermann, Germany
- Luca Varani, Switzerland
- Norbert Weiss, Czechia

## Czech Centre for Phenogenomics (CCP)

CCP is a large research infrastructure unique in combining genetic engineering capabilities, advanced phenotyping and imaging modalities, SPF animal housing and husbandry, as well as cryopreservation and archiving, all in one central location - at BIOCEV campus.

Through its membership in INFRAFRONTIER and IMPC, CCP is a partner in a global network that aims to comprehensively and systematically analyze the effect of loss of function gene mutations in mice. The goal is to produce a comprehensive 'encyclopedia' of gene function, that will help identify causative factors of human diseases as well as novel targets for therapeutic intervention.

### DEADLINES

**20 August 2023**

for active participants, i.e. participants who wish to submit an abstract

**10 September 2023**

for passive participants, i.e. without an abstract
